Matias wakes up really early

He is always awake before than me, around 8 o' clock

After he wakes up, he has breakfast, and turn on the playing box until 12:00, when his first classes finish

He goes downstairs to play with me and my friend Bella, he eats his lunch and give us our food, once we all finish to eat, our owner goes outside, and we follow him, to give him company.

He goes to turn on the playing box one more time, at 14:00 usually, but also at 13:30 some other days, and he stays using the playing box until the dinner time, where he feeds us too, and when we all finish, everyone goes to sleep.

The end.
